Let's get organized!

Greetings Sue ;

Ok, I saw you roll your eyes at this one and let's talk about it for just a minute. Have you ever stopped to wonder how you would find all your important financial and medical information if your home was threatened by fire or a mud slide or any other natural disaster? What about if you were travelling and something happened where you needed this information quickly to be able to secure the care you needed? Then there are the family photo collections, the insurance policies and a list of all your valuables. Could you reproduce these easily and quickly if you had to?

I have come across a tool which can easily manage all this information for you - it's your very own portable vault! Brought to you by The Estate Vault, Inc., ma Vault gives you and those close to you peace of mind that comes with knowing that you have taken the steps to prepare for an unexpected event. An electronic service designed to give you the means and tools to store and manage all of your vital information in one secure and simple-to-use solution.

Unique features of your ma Vault subscription include:

- \$25,000 Identity Theft Protection**
- Home Inventory Listing**
- Account Aggregation**
- Financial Calculators**
- Trip Registry**
- Key Contacts Directory**
- Insurance Policy Listing**
- Financial Information**
- Personal Information**
- Document Storage**
- Collaborate With Others**
