April Newsletter

## Greetings!

If you felt exhausted after trying to do your 2010 taxes, then you're not alone. Small-business owners say the tax code is too complex and depletes their time and resources, according to a recent survey by the National Small Business Association.

**Payroll taxes were listed as the most burdensome in the survey**, conducted the last two weeks of March, and more than half of owners said they would spend a full workweek doing their taxes. This leads me to this month's **Your Money Saving Tip** article listed below.

As the tax deadlines fast approach, if you would like for us to prepare these forms, please don't hesitate to contact my office at [\(406\) 257 - 6044](tel:4062576044) to talk about solutions.

In Abundance,

*Sue*

**PS: A big Welcome from Montana!** to all the new readers who joined our newsletter since last week. You are going to enjoy the tax saving resources you will find here to help you keep more money!
